6. Rules of Trading in the Dutch method of trading:
The auctioneer announces the starting price of the property and lowers the starting price of the claimed steps, announcing a new price. The auctioneer calls the number of the member who raised the auction room at the advertised price, and with the fall of the hammer declare it the winner of

bidding on this property. Bargaining goes up to the minimum price. If the declaration of the auctioneer minimum price of the property, none of the players did not wish to purchase the property, then the property is withdrawn from the auction.

If at the time of announcement of the price, there are two or more players who agree with the price offered, the auctioneer starts to raise the price by an amount fixed pitch until the winner is determined.
